4. Over Indiastat.com, the statistical information about India, its regions and states has been qualitatively analysed, condensed and presented in a user-friendly format.
5. The available information can easily be searched/located through a dedicated search-bar wherein refined search can easily be made by applying filters to search data for a particular Year, Section, State or Region
6. This exhaustive and methodically compiled data can easily be accessed within three or four clicks. The data can also be downloaded in MS-Excel/Word/HTML formats. If required, print can also be taken out.
7. Unlike other e-resources, the statistical information on Indiastat.com is not just restricted to pre-defined data formats wherein only the pre-structured information can be added or uploaded. Infact the Indiastat.com data system has been designed in such a way that any important information relevant to the research fraternity can be added or updated.
8. Along with each data table, the source from where the data is taken is also provided, so that proper citation can be mentioned.

9. The statistical Data is continuously added or updated regularly, depending upon its availability from the respective source and provided on an “AS IS” basis. More than 2000 data tables are being updated or added on a weekly basis.
10. Indiatstat.com has a dedicated help section on its interface, which allows every user to interact withIndiatstat.com regarding their access or data issues.
11. Indiatstat.com has a section named “Socio-Economic Voices” which allows its subscribers to readarticles being written by eminent scholars and personalities in India and the world. For more information or to read such articles, [CLICK HERE](#)
12. The subscribers of Indiatstat.com also have complementary access to some eBooks out of the cluster of 4000+ eBooks available on Indiatstatpublications.com. For more information, [CLICK HERE](#)
