

Morning Context:

The Morning Context is a research publication. It publishes independent research, analysis and opinion daily on startups, businesses, technology, finance, banking and economic current affairs - focussed on India and the Middle East region. The stories bring new information or context to significant news events, marrying it with remarkable depth and an easy style of writing which helps readers understand the world of finance and enterprise.

In a year, it publishes over 500 original, detailed stories which includes longforms, explainers and dedicated opinion pieces on technology, AI & startup, climate, MBA interview prep, strategic issues - defence and diplomacy, and more.

The Middle East edition specifically focuses on longform stories from the Middle East's emerging financial ecosystem, weekly newsletters tracking the latest in tech/ business in the region, plus a dedicated coverage on India and UAE alliance.

You will also have access to 3000+ stories from our archives.

- India edition can be accessed here: <https://themorningcontext.com/>
