Welcome to Turnitin Guides

We are consolidating numerous pages to make our individual guides more valuable as well as removing duplicated content.

For example, our Similarity Report guidance on help.turnitin is repeated in numerous places to cater for each individual integration and license type. On guides.turnitin this content will exist in a single place to allow for users of all integrations and licenses to find it easily. We have made slight modifications to these guides to help you understand which guides are pertinent to you and your institution.

Our guidance search has greatly improved

As a result of our content restructure, the search functionality for guides.turnitin has improved. Use the search bar at the top of any page to locate the guidance you're searching for.

Dedicated student and administrator guidance hubs

Visit the [Student hub](#) area to locate student guidance. For students who access Turnitin via an LMS or VLE, check out the subsection [Submitting to Turnitin](#).

Visiting the [Administrator hub](#) area to locate administrator guidance and release notes.

iThenticate and Crossref Similarity Check guidance is now located on a separate site

To improve the experience for our iThenticate and Crossref Similarity Check customers we have move their help content onto a separate help site, guides.ithenticate.com. This will improve the search for all users.

We have also created [an orientation page for this site](#) to help users become acclimatised.

Some guidance is no longer grouped within the LMS umbrella

Some guidance which was previously provided under each LMS has been moved to sections that reflect those workflows' outcomes. Use the table below as a cheatsheet to quickly locate guidance.
